BIRDHOUSE WITH PAPER ROLL

Birdhouse with a roll of paper,
to write or to draw on.

Biophilic and circulaire in design and in material choice
to maximise well being of human and planet.

For at home, in the office or at school
in the kitchen, in the meetingroom, in the classroom or,
it does not matter where,
where ever the birdhouse stays or hangs
it creates sympathy and creativity.

Rolling out the paper allows you to create
a writing-table-cloth or a writing-wall.
Yes finally you are allowed to write or draw
on the table or on the wall.
Making plans or doing brainstorms together
on a paper roll.

A breeding-nest for ideas,
for visual community communication,
for a better understanding
and more fun.

Two models:

BLÅ-TIT A1 for an A1 (610 mm) paper roll

BLÅ-TIT A2 for an A2 (500 mm) paper roll

Designers: Kitty de Groot & Menno Mastenbroek
